HAFSA IFTIKHAR

Website Administrator • WordPress • SEO • Digital Marketing • UI/UX

hafsaiftikhar2003@gmail.com | +92 336 9387999 | Karachi, Pakistan

Website Administrator and Frontend Developer with hands-on experience managing WordPress and eCommerce websites, including WooCommerce and Salla platforms. Skilled in website content management, SEO, Google Search Console, Meta Ads, Meta Pixel, UI/UX design, and responsive web development. Experienced in updating website content, optimizing user experience, maintaining website quality, and supporting digital marketing activities. Strong attention to detail, excellent problem-solving skills, and committed to delivering accurate, high-quality work in remote environments. Currently expanding knowledge of Google Analytics and digital campaign reporting.

EXPERIENCE

Web Development Intern | Vectorscape (6 Months)

- Built and maintained responsive WordPress and frontend websites using HTML5, CSS3, JavaScript, and modern web technologies.
- Updated website content, optimized layouts, and ensured responsive performance across multiple devices.
- Applied on-page SEO best practices and monitored website performance using Google Search Console.
- Tested website functionality, links, layouts, and responsiveness to ensure a high-quality user experience.
- Collaborated with team members to deliver projects within deadlines.

Web Development Intern | CodSoft 3 Months

- Developed responsive web pages using HTML5, CSS3, JavaScript, and Bootstrap with a focus on clean UI.
- Optimized frontend performance and improved page load speeds through code refactoring and layout improvements.

PROJECTS & HANDS-ON EXPERIENCE

Website Administration| WordPress| Elementor| WooCommerce| On-Page SEO| Google Search Console| Meta Pixel| Digital Marketing Support| Website Content Management| React.js

FREELANCE WEB DEVELOPER & WEBSITE ADMINISTRATOR | 2025 – PRESENT

- Design, develop, and maintain responsive websites using WordPress, Elementor, WooCommerce, React.js, HTML, CSS, and JavaScript.
- Manage website content including pages, products, blogs, images, links, and layouts with accuracy and attention to detail.
- Upload and format content based on client requirements while ensuring a smooth user experience.
- Perform website testing for responsiveness, functionality, broken links, and cross-browser compatibility.
- Implement on-page SEO practices and monitor performance using Google Search Console.
- Support Meta Pixel setup, Meta Ads campaigns, and digital marketing activities to improve visibility.
- Collaborate with clients to gather requirements, provide updates, and deliver projects on time.

- Provide ongoing website maintenance, troubleshooting, and content updates.

WordPress E-commerce Website

- Developed a fully responsive WooCommerce website with product management, category organization, secure payment integration, and user-friendly navigation using WordPress, Elementor, WooCommerce, and SEO best practices.
- Managed website content, optimized pages for search engines, and improved overall website performance and usability.

Salla E-commerce Store

- Managed a live Arabic e-commerce store, including product uploads, inventory updates, website customization, and content management using the Salla platform.
- Optimized product pages with on-page SEO and improved customer experience.
- Supported digital marketing activities and ensured accurate, updated store content.

React.js Web Applications

- Built responsive web applications using React.js, Vite, HTML5, CSS3, and JavaScript, focusing on performance, usability, and user experience.
- Applied SEO best practices and integrated Google Search Console to monitor indexing and performance.

AutoPyNet (Final Year Project)

- Developed a GUI-based network automation tool using Python (PyQt5) and React.js for configuring Cisco and Juniper devices, reducing manual setup time.
- Built an interactive frontend with React.js connected to backend automation logic for improved usability and control.
